### FINDING PARADISE WITHIN REALITY

During the course we worked with the subjects:

1. The Sexual Triangle: exploring one's position in the original sexual triangle (father, mother, child) situations and its influence on one's relationships;
2. Freeing love's sustaining power: finding one's sexual ground in connecting the heart and the genitals;
3. From triadic to diadic love: releasing love's potential in the processes of polarization, harmonization and transformation of masculine and feminine resources.

Between the phases the participant did \_\_\_\_\_ hours of individual/group therapy sessions with a certified SEXUAL GROUNDING THERAPY® therapist.
